Biological Processes

chemical synaptic transmission		
anterograde trans-synaptic signaling		
trans-synaptic signaling behavior synaptic signaling		
cell-cell signaling	plasma membrane bounded cell projection morphogenesis	
	neurogenesis neuron projection development nervous system development cell projection organization plasma membrane bounded cell projection organization	number of ger 50 100 150
regulation of membrane potential regulation of transport	regulation of developmental process cell morphogenesis	p.adjust 9e-04
	of localization	6e-04
regulation of system process multicellular organismal signaling heart contraction blood circulation muscle system process	regulation of cellular component organization	3e-04
cardiac muscle cell contraction	actin filament-based process	
regulation of heart rate	cytoskeleton organization	
	actin cytoskeleton organization
