regulation of transporter activity	
regulation of heart contraction  heart process  heart process	
muscle contraction cardiac muscle contraction	
cardiac muscle cell contraction	
striated muscle contraction regulation of muscle system process actin filament-based movement	
actin-mediated cell contraction muscle system process regulation of actin filament-based process actomyosin structure organization	
muscle cell development sarcomere organization	
muscle cell differentiation myofibril assembly	
striated muscle cell differentiation striated muscle cell development	
cardiac muscle tissue development	
striated muscle tissue development	
muscle tissue development	
heart morphogenesis	
	number of genes
	O 20 O 30
regulation of developmental growth	<ul><li>40</li><li>50</li></ul>
	p.adjust 6e-11
	4e-11
	2e–11
	_
axonogenesis	
positive regulation of cell projection organization	
cell junction assembly	

cell-substrate junction organization
