## **Biological Processes**

heart morphogenesis

cardiac chamber morphogenesis cardiac chamber development

striated muscle tissue development

cardiac ventricle development

ventricular cardiac muscle tissue development

muscle tissue development

cardiac muscle tissue morphogenesis

muscle organ morphogenesis cardiac muscle tissue development

muscle organ development

muscle tissue morphogenesis

regulation of the force of heart contraction

muscle contraction

muscle system process

striated muscle contraction

ribosome assembly

cytoplasmic translation

	_		
$\sim$	$\mathbb{N}$	lvtic	process
u		เขนเษ	MI00033

ADP metabolic process	
ATP generation from ADP	number of genes
	0 8
nucleoside diphosphate phosphorylation	<u> </u>
purine nucleoside diphosphate metabolic process	<u> </u>
pyruvate metabolic process	20
TOTAL ALLEYS SXXII	24
purine ribonucleoside diphosphate metabolic process	
nucleotide phosphorylation	p.adjust
carbohydrate catabolic process	6e-08
ribonucleoside diphosphate metabolic process	4e-08
Theoride diphosphate inclusions process.	2e-08
ATP metabolic process	

generation of precursor metabolites and energy
