Biological Processes

nucleoside diphosphate phosphorylation
monosaccharide metabolic process

pyruvate metabolic process

glycolytic process

ADP metabolic process

carbohydrate catabolic process
nucleoside diphosphate metabolic process
ribonucleoside diphosphate metabolic process
purine nucleoside diphosphate metabolic process
nucleotide phosphorylation
purine ribonucleoside diphosphate metabolic process

ATP generation from ADP
purine ribonucleoside diphosphate metabolic process

specification of animal organ identity

circulatory system development

cardiac chamber morphogenesis

animal organ morphogenesicardiac muscle tissue development

cardiac muscle tissue morphogenesis

cardiac chamber development

heart morphogenesis

muscle organ morphogenesis

muscle tissue morphogenesis

tissue morphogenesis

cardiac ventricle morphogenesis

cardiac ventricle development

ventricular cardiac muscle tissue development regulation of the force of heart contraction

ventricular cardiac muscle tissue morphogenesis
