Cellular Components

respiratory chain complex I	
mitochondrial respiratory chain complex I NADH dehydrogenase complex	
transmembrane transporter complex	
oxidoreductase complex transporter complex	
mitochondrial respiratory chain-complex III	
respirasome	
mitochondrial respirasome mitochondrial protein-containing complex	
respiratory chain complex mitochondrial inner	memorane
	mitochondrial proton=transporting ATP synthase complex
cytochrome complex / inner mitochondrial membrane pro-	tein complex
	proton-transporting two-sector ATPase complex
	proton transporting two scotor At rase complex
mitochondrial respiratory chain complex IV	
respiratory chain complex IV	proton-transporting ATP synthase complex
	mitochondrial proton-transporting ATP synthase complex, coupling factor F(o)
	Time of the first
