## **Cellular Components**

collagen-containing extracellular matrix

spliceosomal tri–snRNP complex

Sm–like protein family complex

spliceosomal snRNP complex

U4/U6 x U5 tri–snRNP complex

small nuclear ribonucleoprotein complex

ribosomal subunit
ribosome
cytosolic ribosome
cytosolic ribosome
large ribosomal subunit
large ribosomal subunit
polysome

cytosolic small\_ribosomal subunit

number of genes

102030

**60** 

p.adjust

3e-05

2e-05

1e-05

asymmetric synapse

nuclear pore

myelin sheath

nuclear periphery
