Biological Processes

synaptic vesicle clustering	
•regulation of synaptic vesicle clustering	
ATP synthesis coupled electron transport	
aerobic electron transport chain mitochondrial ATP synthesis coupled electron transport respiratory electron transport chain oxidative phosphorylation	
electron transport chain cellular respiration	
carboxylic acid metabolic process ATP metabolic process aerobic respiration organic acid metabolic process	
generation of precursor metabolites and energy oxoacid metabolic process energy derivation by oxidation of organic compounds	
small molecule metabolic process	number of genes 10 20
tricarboxylic acid cycle	30
nucleobase–containing small molecule metabolic process	p.adjust 0.025
ribose phosphate metabolic process	0.020
purine-containing compound metabolic process	0.015 0.010
	0.010
Cribonucleoside bisphosphate metabolic process	
nucleoside bisphosphate metabolic process	
purine nucleoside bisphosphate metabolic process	
myotube cell development	
regulation of hormone biosynthetic process	
regulation of hormone metabolic process positive regulation of steroid biosynthetic process	
hormone biosynthetic process
