Biological Processes

mitochondrion organization

mitochondrial respiratory chain complex assembly

mitochondrial respiratory chain complex I assembly NADH dehydrogenase complex assembly

respiratory electron transport chain aerobic electron transport chain

electron transport chain

ATP synthesis coupled electron transport

mitochondrial ATP synthesis coupled electron transport

oxidative phosphorylation

cellular respiration

aerobic respiration

ribosomal small subunit assembly number of genes ribosomal small subunit biogenesis RNA processing ribosome assembly rRNA processing rRNA metabolic process p.adjust ncRNA processing ribosome biogenesis ribonucleoprotein complex biogenesis ribosomal large subunit biogenesis

1e-04

peptide biosynthetic process

cellular macromolecule biosynthetic process

amide biosynthetic process

peptide metabolic process

organonitrogen compound biosynthetic process

cellular amide metabolic process translation

cytoplasmic translation
